

Dear Valued customer

RE: Unigraphics is going green!

Over 12 000 tons of waste goes into landfills every day in JHB and Durban alone. **REDUCE; RE-USE; RE-CYCLE!**

You can save money and the environment!

- If you return your used banners etc. to us we will credit you 10% of their original value against your next purchase.
- We will refurbish them and resell them at just 50% of new cost or donate them to needy schools.
- We do guarantee the quality of the refurb units
- We can only offer this on original Unigraphic's equipment as we find only Unigraphic's equipment is rugged enough to reuse.
- Now you can save money and go green by recycling those thousands of display units cluttering up your warehouse.
- Another reason to choose Unigraphics, on top of great quality, low prices and unmatched guarantees.

Let's make 2012 a great, green year together!

Every bit helps, no matter how small we are.

Sincerely,
The Unigraphics team
